☎ +91-8149162084 ✉ dhaval@dhavalchaudhari.com  [LinkedIn](#)  [GitHub](#)

A computer engineer with more than a year of practical full-stack web development experience. Competent with Django, ReactJS, Gorilla, and Express frameworks and proficient in Python, JavaScript, Golang, and SQL. I specialize in designing and building scalable, secure, and high-performance applications, with a focus on clean, maintainable code and efficient optimization. Working together with cross-functional teams to provide creative software solutions that satisfy user needs. I'm excited about taking on challenging tasks, and to stay ahead of the always-changing IT business, I like to keep learning new things and adjusting to new technology. Together, let's create something amazing!

## Projects

---

### SnippetShare - Code Snippet Manager

- Developed a robust and user-friendly web application for managing, storing, and sharing code snippets efficiently.
- Enhanced user experience by implementing secure user authentication, session management, and role-based access controls.
- Engineered a secure backend in Golang, featuring RESTful APIs for efficient CRUD operations on code snippets.
- Improved code readability and maintainability with modular and scalable Go packages.

### Agile Project Management Software

- Led a team of 3 in the development of a comprehensive project management software with features such as a user-friendly Kanban board and support for essential project management tasks.
- Streamlined project management by organizing the project backlog and defining acceptance standards.
- Enhanced project efficiency and collaboration by implementing an interactive Kanban board.

### Customer Relationship Management System

- Designed and implemented a CRM system that allows users to manage customer interactions and relationships more efficiently.
- Contributed to better customer satisfaction and strengthened relationships with clients by managing and resolving customer inquiries and support requests.

## TECHNICAL SKILLS

---

### Languages

Python, JavaScript, SQL, Typescript, HTML/CSS, Golang.

### Framework and Others

Django, ReactJS, Nodejs, Nextjs, Express, System Design, ORM's, PostgreSQL, MongoDB, Git, Docker, Kubernetes, AWS, Kafka, Web Sockets, WebRTC.

## EDUCATION

---

### Bachelor of Engineering, Computer Engineering

*Mahatma Gandhi Mission's College of Engineering and Technology.*

**July 2018 – May 2022**

*Navi Mumbai*

## CERTIFICATIONS

---

- Troubleshooting Backend Performance – Udemy
- Blockchain A-Z: Build a Blockchain, a Crypto - Udemy
