As a passionate computer engineer with over a year of hands-on experience, I have developed a strong interest in full-stack web development and am skilled in a wide array of programming languages and technologies. I have practical experience in Python, JavaScript, SQL, Golang, and various frameworks such as Django, ReactJS, Gorilla and Express. My goal is to leverage my diverse skill set to help companies build innovative and impactful products. I am always eager to explore new opportunities and take on new challenges, continuously expanding my knowledge across technologies and development practices.

Projects

SnippetShare - Code Snippet Manager

- Developed a robust and user-friendly web application for managing, storing, and sharing code snippets efficiently.
- Enhanced user experience by implementing secure user authentication, session management, and role-based access controls.
- Engineered a secure backend in Golang, featuring RESTful APIs for efficient CRUD operations on code snippets.
- Improved code readability and maintainability with modular and scalable Go packages.

Agile Project Management Software

- Led a team of 3 in the development of a comprehensive project management software with features such asa user-friendly Kanban board and support for essential project management tasks.
- Streamlined project management by organizing the project backlog and defining acceptance standards.
- Improved project efficiency and collaboration by implementing an interactive Kanban board.

Customer Relationship Management System

- Designed and implemented a CRM system that allows users to manage customer interactions and relationships more efficiently.
- Contributed to better customer satisfaction and strengthened relationships with clients by managing and resolving customer inquiries and support requests.
- Improved project efficiency and collaboration by implementing an interactive Kanban board.

TECHNICAL SKILLS

Languages

Python, JavaScript, SQL, Typescript, HTML/CSS, Golang.

Framework and Others

Django, ReactJS, Nodejs, Nextjs, Express, System Design, Linux, PostgreSQL, MongoDB, Git, Docker, Kubernetes, AWS.

EDUCATION

Bachelor of Engineering, Computer Engineering   July 2018 – May 2022
Mahatma Gandhi Mission's College of Engineering and Technology.   *Navi Mumbai*

CERTIFICATIONS

- Troubleshooting Backend Performance – Udemy
- Problem Solving (Intermediate) – HackerRank
